User Manual for Bug Report Classifier

Input Format:
CSV file with columns: Title, Body, class
File should be placed in D:/datasets/ (or adjust path accordingly)

Running the Classifier:
Modify the project variable in the script to match the dataset file name (without .csv extension)

Run the script with:
python your_script_name.py

Outputs:
Console output of performance metrics: Accuracy, Precision, Recall, F1-score, AUC
Results saved as CSV (e.g., pytorch_NB.csv) in the parent directory

Structure:
Main script contains data loading, preprocessing, TF-IDF vectorization, classifier training, and evaluation
